

TO OPEN EYES WIDE SHUT
For starters, read (and pass around) David Ray Griffin's "The New Pearl Harbor - Disturbing Questions about the Bush Administration and 9/11." Then check out www.911truth.org for more resources, allies and news, and www.911visibility.org for lots of effective things to do.

DEMAND 9/11 TRUTH AT LAST.
HELP BRING THE LIES TO LIGHT.
Many are now working for a People's 9/11 Inquiry, collective impeachment hearings, and public education events. Find a place in this historic uprising. *Our Motherland's in trouble. Save her ass. Get involved . . .*

**DUDE, there's MORE
to the STORY**

TOWARD A LONG HOT SUMMER OF TRUTH

Thanks for showing up. The country will be glad you came. Fahrenheit 9/11 is indeed a heroic picture of the peril we face, at least as far as it goes. With a little more study, Michael could have pushed it even further though, and exposed a lot **more** lies that still cloud our minds today. In fact, he could have totally **demolished** Bush's official 9/11 story and the source of all his power. **We the People** now have to finish that task and **you're** invited to join the fray.

Fahrenheit 911

... is just the TIP of the iceberg

SMALL PRINT OF HUGE IMPORTANCE

*Michael had to fight like hell to get his message out, but many others are still fighting to get the facts below to you. **FOR EXAMPLE, have you ever heard that:***

- The victim families, who fought to create the 9/11 Commission, presented it with over 140 critical questions, **90%** of which remain unaddressed to this day. The week before 9/11, stock market wagers that United & American Airlines would soon crash in value were bizarrely high, and won unnamed prophetic bettors over \$5 million.
- The 47-story World Trade Center 7, which was neither hit **nor** badly damaged, still collapsed *perfectly symmetrically* from the bottom up at free fall speed
- White House officials (and *only* White House officials) began taking CIPRO on September 11th, weeks before the first anthrax reports appeared.
- Pakistan's intelligence chief, who met with George Tenet and other top US guns days before 9/11, also sent \$100,000 to the alleged lead hijacker just **a few weeks** earlier.
- A year before 9/11, Bush's neocon crew wrote publicly that the huge military buildup they wanted would *take forever without "some cataclysmic and catalyzing event like a new Pearl Harbor."*
- Throughout the summer of 2001 our officials ignored *dozens* of **urgent warnings** from foreign governments and *stifled* FBI field inquiries into Al Qaeda operations.
- FBI whistleblower Sibel Edmonds reported that *months before 9/11* she had seen FBI documents warning that Al Qaeda was preparing to hit New York with planes.
- Former Cabinet Ministers in Britain, Germany, and Canada have all publicly stated that *the official explanation of our air defense collapse is just **impossible** to believe.*
- **No one** responsible for ignoring warnings, quashing investigations, or our air defense "failures" has ever even been rebuked; in **fact**, most were promoted to higher posts.
- Last November 9/11 widow, Ellen Mariani filed a federal RICO (racketeering) suit against the Bush White House for letting 9/11 happen "for personal and political gain."
- May 26, 2004, the Toronto Star reported that **63%** of Canadians now believe our government knew 9/11 was coming and did not interfere.

WHAT DOES ALL THIS SUGGEST TO YOU?

Polls show that two-thirds of Americans now realize the official JFK story was a crock. Unluckily **we don't have 40 years to wake up** to a 9/11 hoax. *Its fallout is already causing fiscal ruin, endless war and Constitutional collapse.* We can't even wait for the next Fahrenheit 9/11. If we want a sequel (with a happier end), we're going to have to *produce it **ourselves** in the streets and on our own.*
